## Message from the President Third Student Conference

On Thursday the 10th of February, the Deanship of Research and Graduate Studies successfully organised the Third Student Conference. In total, 40 presentations were made by bachelor and master students. I attended at least 15 presentations on the day and was really impressed by the quality of the presented work and the fluency of the language, especially those presenting in English. This very important conference will give our students the confidence and skills needed to undertake research of good quality. The culture of excellence we are creating in the University is manifesting itself in many good practices and initiatives in clouding the student conference.

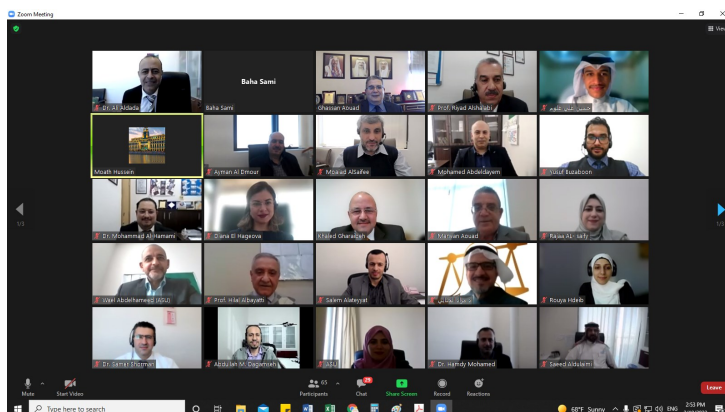

I would like to take this opportunity to thank all our students presenters and congratulate those who won the best presentations. In addition, I would like to thank the scientific committee and all staff and moderators of the various sessions. A special thank you must go to Prof Khaled and Professor Riyadh for making this conference a great success.

It is our duty as educators, scholars and researchers to equip our students with the right skills especially those in research in order to help them compete in the market place.

Looking forward to the 4th student conference and hopefully this time it will run on campus.

## Computer Science Students of CSC241 – Scientific Research Methods course hosted by Prof. Riyad AlShalabi as a Guest Lecturer

On February 8<sup>th</sup>, 2022, Computer Science Students (CSC241-Scientific Research Methods) hosted Prof. Riyad AlShalabi – “the Acting Dean of Research and Graduate Studies” as a guest lecturer. The instructor of the course Dr. Moaiad Khder welcomed Prof. Riyad and brief the students about the importance of hosting distinct researchers in the course.

Prof. Riyad presented a very useful presentation about the research, research types, goals, methodology, data collection, research resources. In addition, he highlighted the importance of the research to the academia, students and their future life.
